

KS ALUMINIUM

O NAMA

Naša poslovna strategija odlikuje se kontinuiranim ulaganjem u naprednu tehnologiju za ekstrudiranje aluminija, elektrostatsko plastificiranje i anodno eloksiranje, te visokokvalitetnu opremu za obradu aluminijskih profila. Naše raznovrsne aluminijske konstrukcije naći će primjenu u raznim sferama gradnje i proizvodnje, a razvoj temeljimo na stručnom timu koji prati svjetske trendove u projektiranju. Nudimo kompletnu seriju proizvoda, prilagođenu specifičnim potrebama klijenata, od ideje do finalizacije proizvoda. Mi smo tu - ZA NAJVIŠE ZAHTJEVE.

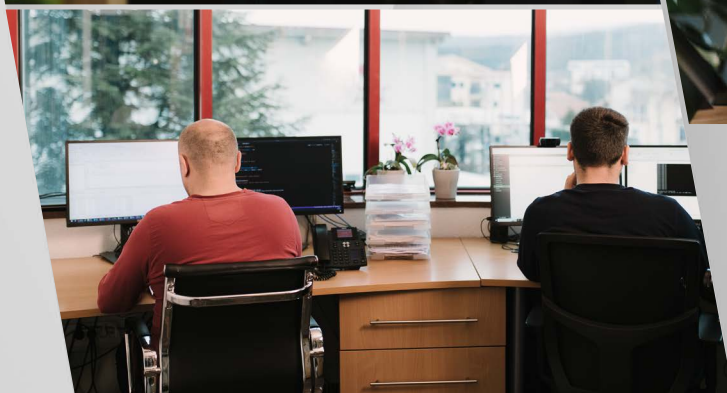

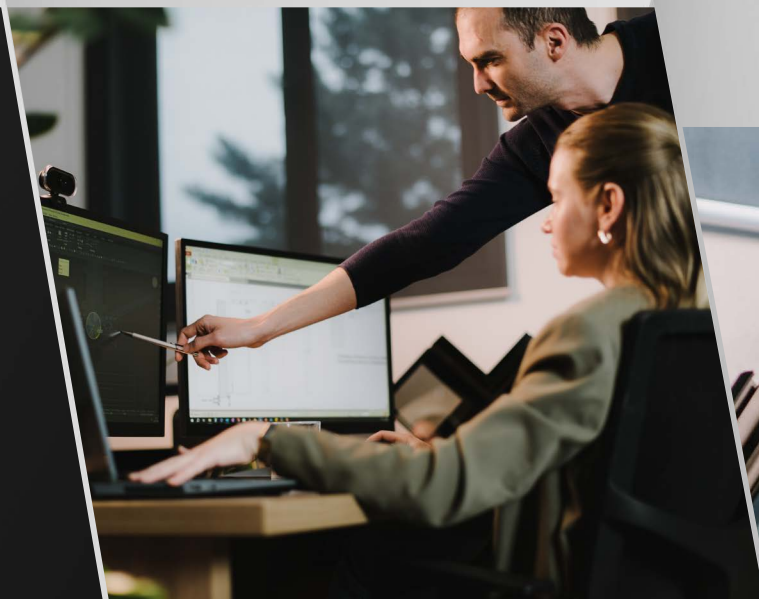

KS ALUMINIUM

ABOUT US

Our business strategy is characterized by continuous investments in advanced technologies for aluminum extrusion, electrostatic powder coating, and anodic oxidation, as well as high-quality equipment for processing aluminum profiles. Our diverse aluminum constructions are used in various sectors of construction and manufacturing, while our development is based on a team of experts who follow leading design trends worldwide. We offer a complete product range that is tailored to meet the specific requirements of our customers, from the initial concept to the finished product. We are here – FOR THE HIGHEST DEMANDS.

RAZVOJNI TIM

Naš poslovni uspjeh oslanja se na stručnost našeg tima inženjera, razvojnih specijalista i stručnjaka za sustave. Neprekidno težimo inovacijama i tehnološkom napretku kako bismo održali našu konkurentnost i izvrsnost.

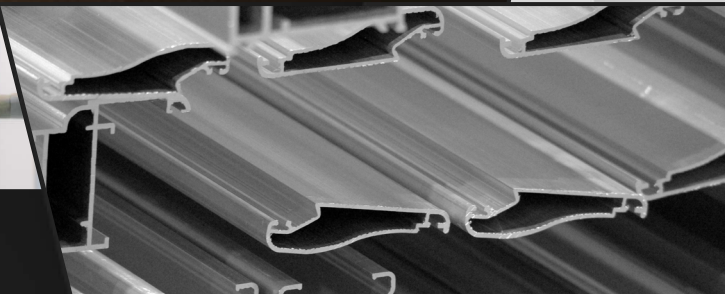

DEVELOPMENT TEAM

Our business success is based on the expertise of our team of engineers, development specialists, and system experts. We continuously strive for innovation and technological advancement to maintain our competitiveness and excellence.

PROIZVODNJA I USLUGE

Uz naglasak na vrhunsku kvalitetu i preciznost, KS Aluminium nudi širok spektar usluga u proizvodnji aluminijskih profila. Budući da naša proizvodnja uključuje strojnu i površinsku obradu profila, jasno je da veliku važnost pridajemo detaljima u svakom koraku proizvodnog procesa, osiguravajući tako izvrsnost konačnog proizvoda.

PRODUCTION AND SERVICES

With a focus on the highest quality and precision, KS Aluminium offers a wide range of services in the manufacturing of aluminum profiles. Since our production includes both mechanical and surface treatment of profiles, we place great emphasis on details at every step of the production process to ensure the excellence of the final product.

KONTROLA KVALITETE

Naša proizvodnja Al profila integrira vrhunske tehnologije uz sustavne kontrole kvalitete kako bismo osigurali vrhunsku izvedbu u svim fazama procesa. Profili koje radimo ispunjavaju najstrože standarde izdržljivosti, estetike i funkcionalnosti.

QUALITY CONTROLS

Our aluminum profile production integrates top-notch technologies with systematic quality controls to ensure outstanding performance at every stage of the process. The profiles we produce meet the highest standards of durability, aesthetics, and functionality.

Postrojenje / Anlage: **Presezzi, Italy (2023)**

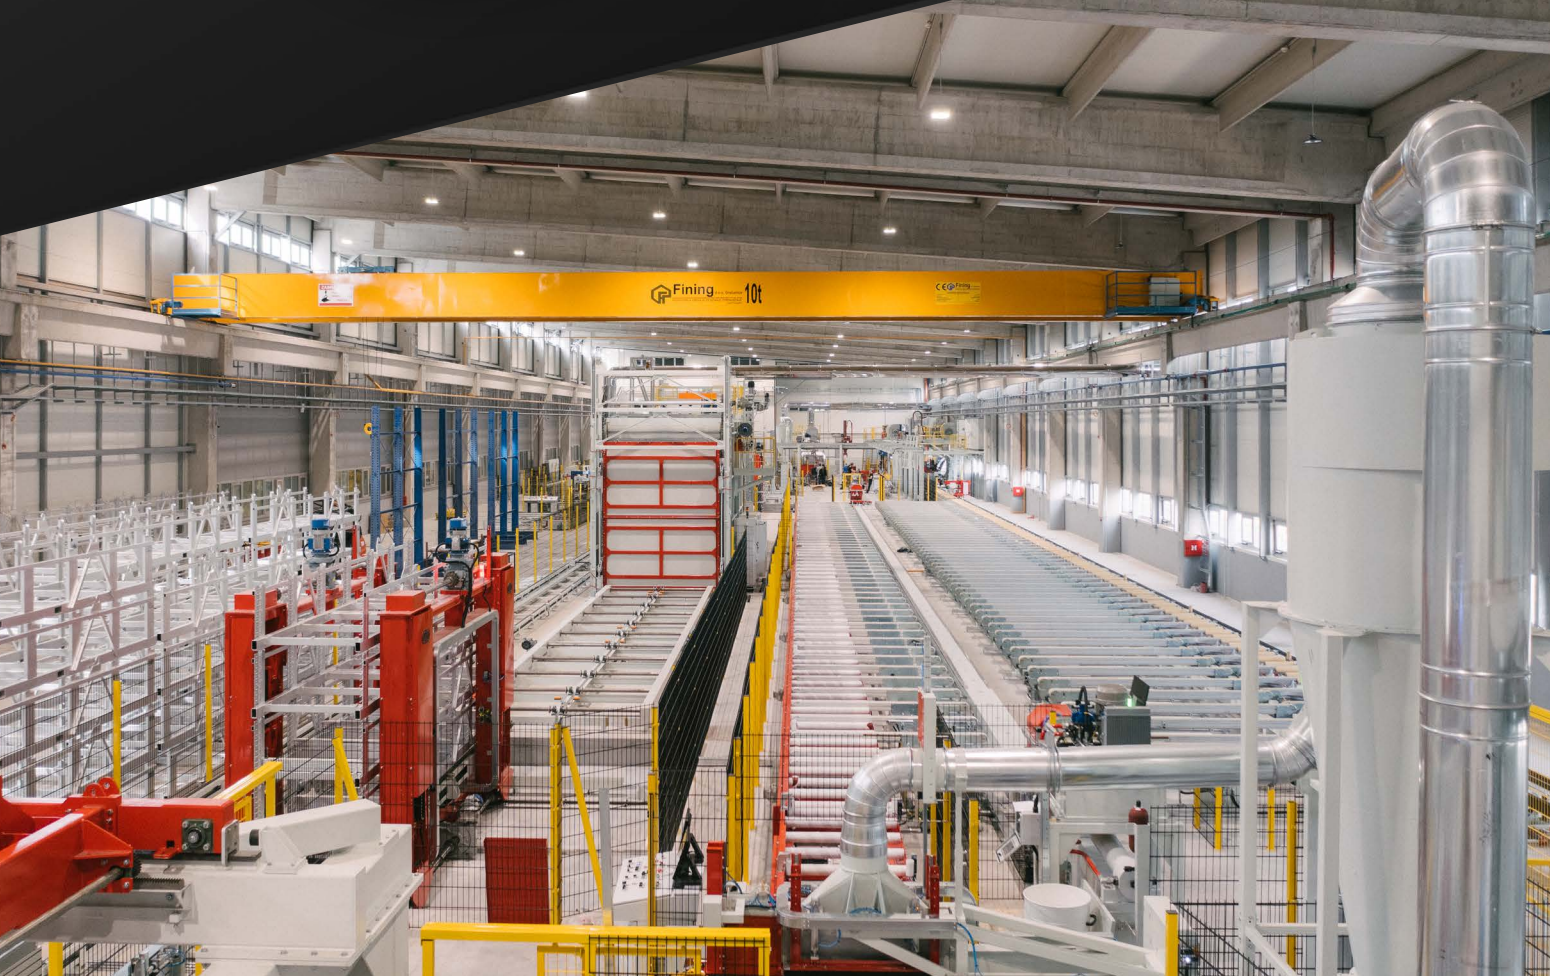

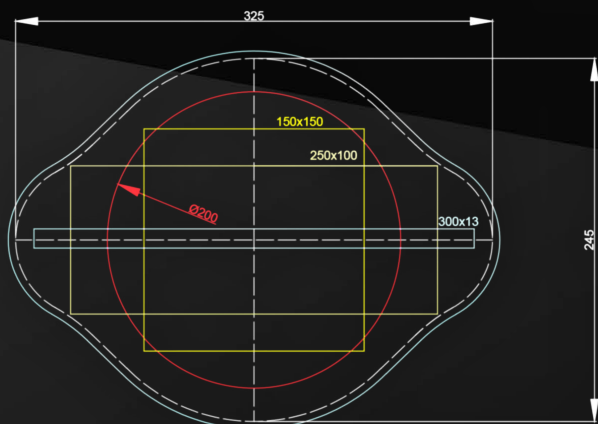

Godišnji kapacitet / J Annual capacity: **12000t**

Aluminijske legure / Aluminum alloys: **EN AW 6060 (AlMgSi 0,5), EN AW 6063 (AlMgSi 0,5),
EN AW 6005A (AlMgSi 0,7), EN AW 60682 (AlMgSi 1)**

Minimalna debljina stijenke / Min. wall thickness: **0,8 – 0,9 mm**

Maksimalna širina profila / Max. profile width: **300 mm**

Maksimalna duljina profila / Max. profile length: **8000mm**
